

EGB242 Assignment 2 Group 14 Plan

Instructions for setting out and planning your assignment contributions: Distribute work on the assignment evenly among the group members and ensure that everything is completed on time. Make sure you allow some time to review the assignment solution before your final submission.

Submitting this group plan is worth **5%** of your Assignment 2 total mark. It will be marked as either “completed” or “not completed.” Please ensure that your plan is submitted on time.

The following table is a suggested way your group could break up tasks, but you may modify, add to, or remove rows or columns in this table as you see fit. **Remember every student is responsible for demonstrating the learning outcomes of the whole assignment.** We suggest rather than assigning one section to each group member, you break up each section into smaller parts, so all group members can get a grasp of the entire assignment.

What action(s) will the group take if a group member is not completing tasks on time?:

- Find out the reason why he couldn't complete, find compromises. If he's not able to complete the task at all and/or makes little effort to communicate, the most important thing to do is to cover his workload. After that, we will report to the Unit Coordinator.
